2.7. Student Satisfaction Survey

2.7.1. Student Satisfaction Survey (SSS) on overall institutional performance

For the academic year 2015-16, students' feedback was sought from 108 students about the curriculum and teaching learning process and college infrastructures.

Majority of the students 45% agreed that the method of teaching was excellent although semester was very short and syllabus was very much challenging.

Most of the students as 94% agreed that teachers covered the syllabus well in time. Around 72% students were satisfied with discussion of topics with the teachers, the way seminar/quiz conducted and tutorials were given and solved.

Around 94% of the students suggested that teachers have delivered the course content with good mastery over their respective field of specialization. These also viewed that variety in the teaching was very good and course content was delivered by the teachers in a well planned sequence with necessary skills.

Teacher's motivation always helps the students to get out of their confusions about life skills and day-to-day life. Most of the students are confused about the continuation of higher studies; therefore, 92 % student agreed upon that they were motivated by the teachers for the higher studies
